| Keyboard overlay | Text field cell | Cell for choice selection |
| Navigation enabled | Prompt to enter value <Label/Prompt Name> | Prompt to select value <Label/Prompt Name> |
| Navigation to next field only | Value entered <Value> | Value selected <Value> |
| Navigation to previous field only | Value edited XX | Cell with value disabled <Value> |
| Navigation disabled | Cell with value disabled <Value> | Cell disabled <Prompt> |
| Cell with multiple values | Cell selected <Prompt to enter value> | Value selected - Error <Value> <Error message> |
| Value and picker combined - prompt | Cell disabled <Label/Prompt Name> | Cell w/prompt for choice selection |
| Value and picker combined - with values | Value entered - Error <Value> <Error message> | Prompt to select value <Field Name> <Label/Prompt Name> |
| Value combined - Disabled | Text field with prompt cell | Value selected <Field Name> <Value> |
| Prompt combined - Disabled | Prompt to enter value <Field Name> <Prompt> | Cell with value disabled <Field Name> <Value> |
| Picker and value combined - prompt | Value entered <Field Name> <Value> | Cell disabled <Field Name> <Prompt> |
| Picker and value combined - with values | Value edited <Field Name> XX | Value selected - Error <Field Name> <Value> <Error message> |
| Picker combined - with values - Disabled | Cell with value disabled <Field Name> <Value> | Yes/No choice cell |
| Picker combined - prompt - Disabled | Cell selected <Field Name> <Prompt> | Yes <Label name> <input checked="" type="checkbox"/> |
| Picker and value combined - Error | Cell disabled <Field Name> <Prompt> | No <Label name> <input type="checkbox"/> |
| Default state | Value entered - Error <Field Name> <Value> <Error message> | Selection disabled <Label name> <input type="checkbox"/> |
| Delete confirmation state | Cell with add button | |
| Default state | Default state <Title Label> | Cell with stepper control |
| Delete confirmation state | <Prompt to add> | Default state - ## + |

| Footnote | Widget Type | Default State | Description | Functionality |
|----------|-------------|---------------|-----------------|---|
| 1 | | | Keyboard header | Will be displayed above the keyboard for fast navigation between text fields in a form as well as for dismissing the keyboard |

| Footnote | Widget Type | Default State | Description | Functionality |
|----------|-------------|---------------|--|--|
| 2 | Button | | Back Field Navigation | Navigates user to previous text field in the form. In case the previous field is not text field, the keyboard will be dismissed as part of the navigation |
| 3 | Button | | Forward Field Navigation | Navigates user to next text field in the form. In case the next field is not text field, the keyboard will be dismissed as part of the navigation |
| 4 | Button | | Done Button | Closes the keyboard |
| 5 | Button | Disabled | Back Field Navigation - Disabled | First field on the form will not have ability to navigation to previous field |
| 6 | Button | Disabled | Forward Field Navigation - Disabled | Last field on the form will not have ability to navigation to next field |
| 7 | Button | Disabled | Navigation Disabled | Illustrates a situation when all fields on the form are disabled or form is empty. In this case there is no next or previous field to navigation to |
| 8 | | | Cell with value and picker | Illustrates a situation when both value and the picker fields are disabled for the cell |
| 9 | | Disabled | Cell with value and picker - Value Entered | Illustrates a situation when both value and the picker fields are disabled for the cell after the values are entered for the cell |
| 10 | | | Cell with value and picker - values entered | Both values are entered for the cell |
| 11 | | Disabled | Cell with value and picker - Prompt only | Illustrates a situation when both value and the picker fields are disabled for the cell before the values are entered for the cell |
| 12 | | | Cell with picker and value | Illustrates a situation when both value and the picker fields are disabled for the cell |
| 13 | | | Cell with picker and value - values entered | Both values are entered for the cell |
| 14 | | Disabled | Cell with picker and value - Value Entered | Illustrates a situation when both the picker and the value fields are disabled for the cell after the values are entered for the cell |
| 15 | | Disabled | Cell with picker and value - Prompt only | Illustrates a situation when both value and the picker fields are disabled for the cell before the values are entered for the cell |
| 16 | | | Cell with picker and value - with error message | The cell with expand vertically and show the error message inline. Also, the cell will be flagged as error cell with a red bar on the left margin |
| 17 | | | Cell with delete option | The delete button will be shown when user has an option to remove the item from the list |
| 18 | | | Delete Control | When user will tap on delete button or swipes left on the cell that can be removed, a delete button will appear as final confirmation for cell removal. Once user taps delete button, the cell will be removed |
| 19 | | | Text entry cell | Prompt to enter a value for the cell. Will be removed as soon as user starts typing in the cell |
| 20 | | | Cell with Value | Once value is entered for the cell it will replace the prompt. User can tap on the value to enter edit mode again. Prompt will appear only when user completely clears the value |
| 21 | | | Value during edit | When user is in process of editing the text value, the clear button ("x") will be displayed in order to allow for fast clearing of the cell's value |
| 22 | | Disabled | Disabled Cell | Cell with a value in disabled state |
| 23 | | | Cell with Prompt | The prompt will be displayed when the text field is in focus but no characters are entered by the user. Entering any character will clear the prompt out |
| 24 | | Disabled | Disabled Cell - prompt | Cell in the prompt state disabled |
| 25 | | | Cell with error message | The cell with expand vertically and show the error message inline. Also, the cell will be flagged as error cell with a red bar on the left margin |
| 26 | | | Text entry cell with static field name | Prompt to enter a value for the cell. Will be removed as soon as user starts typing in the text field |
| 27 | | | Cell with Value - static field name | Once value is entered for the cell it will replace the prompt. User can tap on the value to enter edit mode again. Prompt will appear only when user completely clears the value |
| 28 | | | Value during edit - with static field name | When user is in process of editing the text value, the clear button ("x") will be displayed in order to allow for fast clearing of the cell's value |
| 29 | | Disabled | Disabled Cell - with static field name | Cell with a value in disabled state |
| 30 | | | Value during edit - with static field name | The prompt will be displayed when the text field is in focus but no characters are entered by the user. Entering any character will clear the prompt out |
| 31 | | Disabled | Disabled Cell - prompt - with static field name | Cell in the prompt state disabled |
| 32 | | | Cell with error message - with static field name | The cell with expand vertically and show the error message inline. Also, the cell will be flagged as error cell with a red bar on the left margin |
| 33 | Button | | Add Item Button | When tapped, an appropriate list screen will be presented to select one or multiple items to be added to the list |
| 34 | | | Selection cell | When tapped, an appropriate list screen will be presented to select an option for this field |
| 35 | | | Selection cell - with value | Once user makes the selection, the prompt will be replaced with the selected value. User will always be able to tap on the cell again to make another selection. |

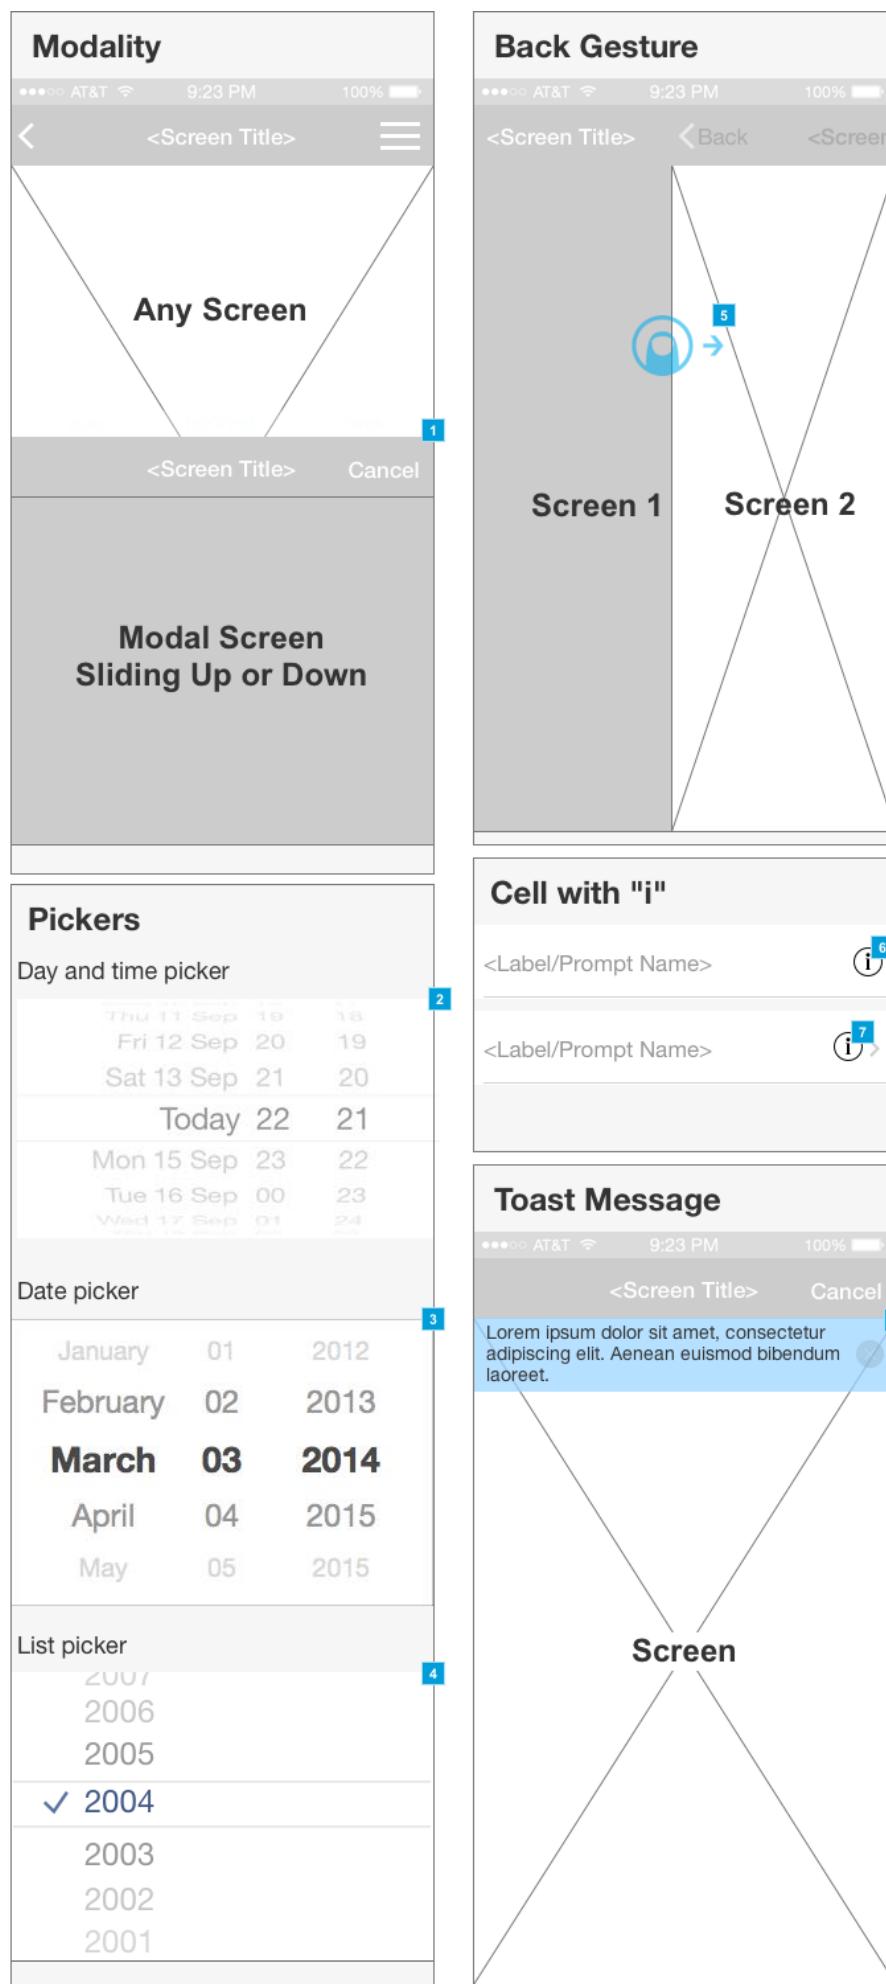

| Footnote | Widget Type | Default State | Description | Functionality |
|----------|-------------|---------------|--|--|
| 36 | | Disabled | Selection cell - disabled | Cell with value selected in disabled state |
| 37 | | Disabled | Selection cell - prompt - disabled | Cell with prompt only in disabled state |
| 38 | | | Selection cell - Error | The cell will expand vertically and show the error message inline. Also, the cell will be flagged as error cell with a red bar on the left margin |
| 39 | | | Selection cell - static field name | When tapped, an appropriate list screen will be presented to select an option for this field |
| 40 | | | Selection cell - with value - static field name | Once user makes the selection, the prompt will be replaced with the selected value. User will always be able to tap on the cell again to make another selection. |
| 41 | | Disabled | Selection cell - disabled - static field name | Cell with value selected in disabled state |
| 42 | | Disabled | Selection cell - prompt - disabled - static field name | Cell with prompt only in disabled state |
| 43 | | | Selection cell - Error - static field name | The cell will expand vertically and show the error message inline. Also, the cell will be flagged as error cell with a red bar on the left margin |
| 44 | | | Yes/No Cell - Yes State | Cell in the Yes state |
| 45 | | | Stepper Control | Will allow to increment or decrement the value by specified step. Tapping or holding on either the "+" or the "-" button will advance the steps faster. Standard iOS control |
| 46 | | | Yes/No Cell - No State | Cell in the No state |
| 47 | | Disabled | Yes/No Cell - Disabled State | Cell in the Disabled state |

Design Patterns - Part 2

| Footnote | Widget Type | Description | Functionality |
|----------|-------------|--------------|---|
| 1 | | Modal Window | Modal windows will slide up from the bottom of the screen to the top of the screen and will be dismissed by sliding down to the bottom of the screen. |

| Footnote | Widget Type | Description | Functionality |
|----------|-------------|-------------------------------------|--|
| 2 | | Date and time picker | Where appropriate this picker will be used to specify both the date and the time |
| 3 | | Date picker | Where appropriate this picker will be used to specify the date |
| 4 | | Single value picker | When appropriate this picker will be used to select a single value such as year of the vehicle |
| 5 | | Swipe from left edge - back gesture | Swiping from the left edge of the screen will be the same as the back gesture on the navigation bar - standard iOS gesture |
| 6 | Button | Info Button | Tapping on this button will show additional info about the specified item (such as text field) in place below the field or on a separate screen when applicable. Tapping on the button when the additional info is visible, will dismiss (hide) that info. |
| 7 | Button | Info Button | Tapping on this button will show additional info about the specified item (such as text field) in place below the field or on a separate screen when applicable. Tapping on the button when the additional info is visible, will dismiss (hide) that info. |
| 8 | | Toast Message | Toast message will be used to present information that user needs to see as part of completion or a task or informational purposes only and when no user interaction is needed on the selected message. The toast will slide down from under the navigation bar and appear above every control on the screen. The toast message will slide up automatically when either manually dismissed by tapping on the "x" button or when timer expired (default is 5 seconds) |

Update Policy - Change Address - Empty - Step 4

The screenshot shows a mobile application interface for updating a policy. At the top, there are status icons for AT&T signal, battery level at 100%, and the time 9:23 PM. Below this is a header bar with 'Back', 'Change Address', and 'Cancel' buttons. A blue numbered callout '1' points to the 'CONTACT INFO' section. The next section, 'Email', contains the value 'john.smith@yahoo.com'. A blue numbered callout '2' points to the right edge of this section. Below this is a dynamic text field labeled 'Effective Date: Jan 13, 2014', indicated by a blue numbered callout '3'. Another blue numbered callout '4' points to the right edge of this section. The following section is titled 'TERMS OF USE' and contains a link 'Yes, I agree to the Terms and Conditions.' followed by a green toggle switch. A blue numbered callout '5' points to the link, and another blue numbered callout '6' points to the right edge of the 'TERMS OF USE' section. At the bottom, a navigation bar shows 'Step 4' with three dots, a 'Next' button, and a blue numbered callout '6' pointing to the right edge of the bar.

Update Policy - Add Vehicle - Empty - Step 2

The screenshot shows the 'Add Vehicle' screen in the Allstate mobile application. At the top, there are status icons for signal strength (1), time (9:23 PM), and battery level (100%). Below the header, there are three buttons: 'Back' (1), 'Add Vehicle' (2), and 'Cancel'. The main content area has a title 'ADD DRIVERS TO YOUR VEHICLE' (3) and a 'Add drivers' button (4). A note (5) explains the importance of understanding driver usage percentages. Below this, there's a section for 'ADDITIONAL COVERAGE' (6) with a tooltip (7). The coverage options are listed as 'Select' items: 'Comprehensive coverage' (8), 'Collision coverage' (9), 'Towing' (10), and 'Rental' (11). At the bottom, a progress bar indicates 'Step 2' (12) and a 'Next >' button.

Back Add Vehicle Cancel

ADD DRIVERS TO YOUR VEHICLE

John Adams Sr. III
Vehicle usage % 50

John Adams Jr.
Vehicle usage % 50

+ Add drivers

To keep your premiums as accurate as possible, it's important for Allstate to understand the percentage this driver will be driving each vehicle.

The total percentage of vehicle usage must equal 100 percent. Please ensure that one driver is assigned to more than 50 percent usage.

ADDITIONAL COVERAGE

Comprehensive coverage \$1,000 >
Step 2 ••• Next >
Collision coverage \$1,000 >

Towing \$100 >

Rental \$20 >

Medical payments \$5,000 >

| Footnote | CMID | Widget Type | Description | Functionality |
|----------|---------|--------------|------------------|--|
| 1 | | | Filled Out State | Form as presented to user after he or she fills out the form |
| 2 | | | Percentage Use | The set of drivers will add up to 100%. The stepper controls will have automatically adjust other driver's percentage when possible so that the total percentage will be equal to a 100. For example if we add a driver to an empty list, the percentage for that driver will be automatically set to 100 and will not be allowed to decrement or increment until other driver is added. When other driver will be added, the percentage will split to 50% each and increase of percentage for one driver, will decrease percentage to the second driver by the same amount. |
| 3 | 29.8.14 | Dynamic Text | | |
| 4 | 29.8.15 | Dynamic Text | | |

Update Policy - Add Vehicle - Empty - Step 3

The screenshot shows a mobile application interface for adding a vehicle. At the top, there's a header with 'AT&T' signal, '9:23 PM', and '100% battery'. Below the header, the title 'Add Vehicle' is centered, with 'Back' on the left and 'Cancel' on the right. A blue numbered callout (1) points to the top right corner of the header.

The main content area has a light gray background. It starts with a section titled 'ANTI-THEFT DEVICES (OPTIONAL)' (2). A green button labeled '+ Add anti-theft devices' (3) is located below this section. A blue numbered callout (4) points to the 'OTHER DEVICES' section header.

The 'OTHER DEVICES' section contains four items, each with a toggle switch:

- 'Anti-lock breaks' (5): Toggled off (gray).
- 'Factory-installed airbags' (6): Toggled on (green checked).
- 'Non-manufactured Installed Airbags' (7): Toggled off (gray).
- 'Rare, restored or altered vehicle' (8): Toggled off (gray).

A blue numbered callout (5) points to the first toggle switch, and another (8) points to the last one.

Below the device section is a 'CONTACT INFO' section with an 'Email' field containing 'john.smith@yahoo.com'.

At the bottom, there's a 'TERMS OF USE' section (9) with the text 'Step 3' followed by three dots and a 'Next >' button. A link 'Yes, I agree to the Terms and Conditions.' is present, with a green toggle switch next to it. A blue numbered callout (9) points to the 'Next >' button.

Update Policy - Replace Vehicle - Filled - Step 1

The screenshot shows a mobile application interface for vehicle replacement. At the top, it displays signal strength, AT&T network, time (9:23 PM), battery level (100%), and a blue circular icon with the number 1. Below this is a header with 'Replace Vehicle' and 'Cancel' buttons. The main content area is titled 'REMOVE VEHICLE' and lists the following items:

- 2004 Audi A4 (with a right-pointing arrow)
- License suspended or revoked (with a right-pointing arrow)
- Effective Date 11/11/2014
- Returned (with a right-pointing arrow)
- FS6T Surrender Date 11/11/2014 (with a right-pointing arrow)
- FS6T number 12345678 (with an info icon)

Below the FS6T section, there is a note: "The state of NY requires residents to surrender (turn in) plates to the NY DMV when taking a vehicle off the road or canceling vehicle insurance. The FS6T is Step 1 till the Over Off Road Corner of the license plate is surrendered." To the right of this note is a blue 'Next >' button with the number 4 above it. At the bottom of the screen is a light gray bar with the number 5 above it.

Update Policy - Replace Vehicle - Empty - Step 3

The screenshot shows a mobile application interface for vehicle replacement. At the top, there's a status bar with signal strength, AT&T network, time (9:23 PM), battery level (100%), and a blue notification badge (1). Below the status bar is a navigation bar with 'Back', 'Replace Vehicle' (highlighted in blue), and 'Cancel'. The main content area has a title 'ADD DRIVERS TO YOUR VEHICLE' and a button 'Add drivers' with a plus sign icon. A note below explains the importance of accurate driver usage percentages for premiums. The 'ADDITIONAL COVERAGE' section lists five items: 'Comprehensive coverage' (Select), 'Collision coverage' (Select), 'Towing' (Select), 'Rental' (Select), and 'Medical payments' (Select). A progress bar at the bottom shows 'Step 3' of 7, with 'Select' highlighted. A large blue 'Next >' button is at the bottom right.

Update Policy - Replace Vehicle - Filled - Step 3

The screenshot shows the 'Replace Vehicle' screen in the Allstate mobile app. At the top, it says '9:23 PM' and '100%'. Below that, there's a back button, a 'Replace Vehicle' title, and a 'Cancel' button. The main section is titled 'ADD DRIVERS TO YOUR VEHICLE'. It lists two drivers: 'John Adams Sr. III' and 'John Adams Jr.', each assigned 50% vehicle usage. There are minus and plus buttons to adjust these percentages. Below this, there's a green 'Add drivers' button. A note says: 'To keep your premiums as accurate as possible, it's important for Allstate to understand the percentage this driver will be driving each vehicle.' Another note says: 'The total percentage of vehicle usage must equal 100 percent. Please ensure that one driver is assigned to more than 50 percent usage.' The bottom section is titled 'ADDITIONAL COVERAGE' and lists several options: 'Comprehensive coverage \$1,000', 'Step 3 Collision coverage \$1,000' (which is selected), 'Towing \$100', 'Rental \$20', and 'Medical payments \$5,000'. A 'Next >' button is at the bottom right.

| Footnote | Description | Functionality |
|----------|---------------------|--|
| 1 | Filled Out State | Form as presented to user after he or she fills out the form |
| 2 | Percentage Use | The set of drivers will add up to 100%. The stepper controls will have automatically adjust other driver's percentage when possible so that the total percentage will be equal to a 100. For example if we add a driver to an empty list, the percentage for that driver will be automatically set to 100 and will not be allowed to decrement or increment until other driver is added. When other driver will be added, the percentage will split to 50% each and increase of percentage for one driver, will decrease percentage to the second driver by the same amount. |

| 4 | 29.12.04 | Dynamic Text | Policy Number | Displays policy number |
| 5 | 29.12.05 | Dynamic Text | Effective Date | Effective Date as specified by the user during filling out of the form |
| 6 | 29.12.06 | Button | Submit Button | Will submit the request and if successful move to the "Manage Policies - Update Policy - Helpers - Submit Notification" screen |
| 7 | 29.12.07 | Button | Edit Button | Cancels out the submission step and returns user to the first step in the form with all the data still available for editing |
| 8 | 29.12.08 | Button | Cancel Button | Will show a confirmation screen "Manage Policies - Update Policy - Helpers - Cancelation Confirmation" in order to prevent accidental dismissal of the process |

Manage Policies - Update Policy - Helpers - Submit Notification

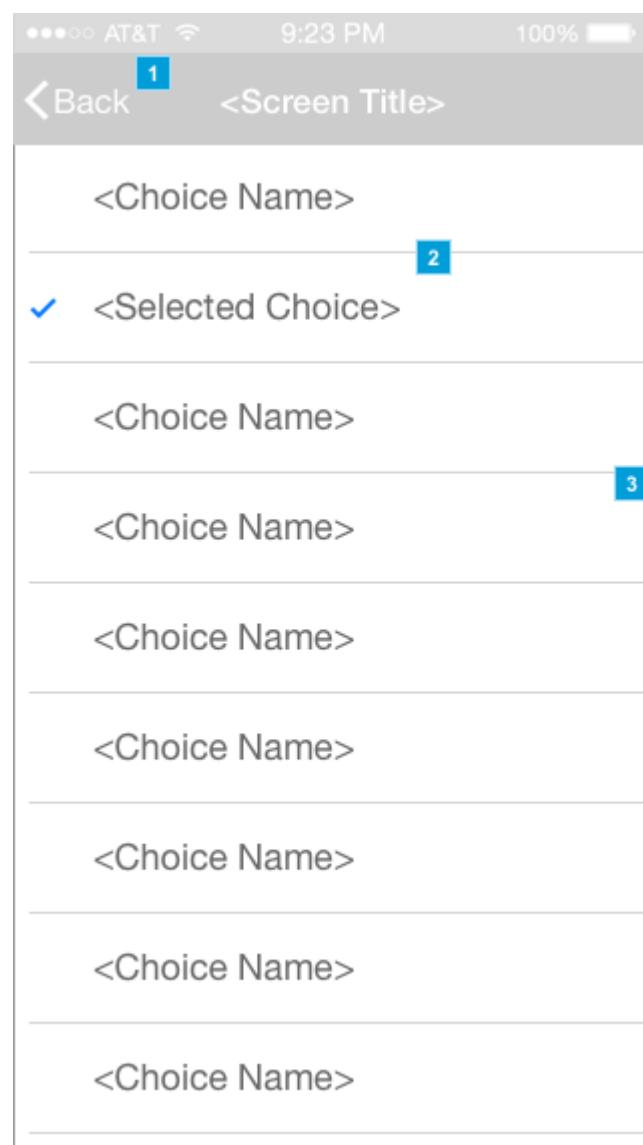

The screenshot shows a mobile application interface titled "Submission Confirmation". At the top, there are icons for signal strength, AT&T, battery level at 100%, and a blue circular progress bar with the number "1". Below this, the title "Submission Confirmation" is followed by a "Done" button. The main content area contains the following information:

- A red car icon labeled "Auto" (2).
- A message: "Your <Endorsement Type> requested updates have been submitted" (3).
- A message: "Message that someone from the CCC will be reaching out to them" (4).
- A "Policy #" field containing "000000000" (5).
- A "Date of Request:" field containing "11/19/2014" (6).
- A "Name:" field containing "John F. Smith" (7).
- An "Email:" field containing "john.smith@gmail.com" (8).
- A section for "Effective Date:" containing "11/19/2014" (9).
- A "View Disclosure" link (10).
- A large blue "Save to Photos" button (11).

| Footnote | CMID | Widget Type | Description | Functionality |
|----------|----------|--------------|------------------------|--|
| 1 | | | Done Button | Closes the modal window and returns the user to the "Manage Policies - Update Policy" screen |
| 2 | | | Policy Type | Image and name describing the policy type |
| 3 | 29.13.01 | Dynamic Text | Endorsement Type | This text will be replaced with actual endorsement type used for this change request |

Update Policy - Change Address - Questions

The screenshot shows a mobile application interface with a modal window. The window has a title bar 'Change Address' with a close button 'X' and a step indicator '1'. Below the title is a question 'Change residence address' with a 'NO' button. A descriptive text follows: 'Description of what change residence address really means. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean euismod bibendum laoreet.' To the right of this text is a step indicator '2'. Below the first question is another 'Change residence address' with a 'NO' button and a descriptive text: 'Description of what change mailing really means. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean euismod bibendum laoreet.' To the right of this text is a step indicator '3'. Below the second question is a third 'Change residence address' with a 'NO' button and a descriptive text: 'Description of what change garaging really means. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean euismod bibendum laoreet.' To the right of this text is a step indicator '4'. At the bottom of the modal are navigation buttons: '< Previous' and 'Next >'.

Update Policy - Change Address - Empty - Step 4

The screenshot shows a mobile application interface titled "Change Address". At the top, there is a header bar with icons for signal strength, battery level, and time (12:30). Below the header, the title "Change Address" is displayed next to a close button (X).

1. **Contact Info:** A text input field containing the email address "john.smith@yahoo.com".

2. **Effective Date:** A text input field showing the date "Jan 13, 2014".

3. **Terms of Use:** A section labeled "Terms of Use" with a checkbox. The text next to the checkbox reads: "Yes, I agree to the [Terms and Conditions.](#)".

4. **YES**: A blue rectangular button labeled "YES" in white text.

5. **Navigation:** At the bottom, there are navigation buttons: "Previous" (with a left arrow icon), "Step 4" (with a series of five dots indicating progress), and "Next" (with a right arrow icon). The number "6" is highlighted in a blue box above the "Next" button.

| Footnote | CMID | Widget Type | Description | Functionality |

| 4 | Loan Expiration Date | Tapping this button will open a date picker (see Design Patterns - Date Picker) setup according to appropriate business restrictions on selectable dates and date ranges |

Update Policy - Replace Vehicle - Empty - Step 3

The screenshot displays a mobile application interface for updating vehicle policy. At the top, there's a header with a close button (X) and the title "Replace Vehicle". Below the header, a section titled "Add Drivers to Your Vehicle" contains a blue "ADD DRIVERS" button. A note below the button states: "To keep your premiums as accurate as possible, it's important for Allstate to understand the percentage this driver will be driving each vehicle. The total percentage of vehicle usage must equal 100 percent. Please ensure that one driver is assigned to more than 50 percent usage." To the right of this note is a blue numbered callout (1). The main content area lists several coverage options: "Additional Coverage" (with a blue numbered callout (i)), "Comprehensive Coverage" (with a blue numbered callout (2)), "Collision Coverage" (with a blue numbered callout (3)), "Towing" (with a blue numbered callout (4)), "Rental" (with a blue numbered callout (5)), and "Medical Payments" (with a blue numbered callout (6)). At the bottom of the screen is a navigation bar with "Previous" and "Next" buttons, and a progress indicator showing "Step 3" of 6.

| Footnote | Description | Functionality |
|----------|------------------------|---|
| 1 | Prompt Sate | Form as presented to user before he or she fills out the form |
| 2 | Comprehansive Coverage | Tapping this button will open a menu (see Design Patterns - Menu Pattern) populated with appropriate set of choices for this option |
| 3 | Collision Coverage | Tapping this button will open a menu (see Design Patterns - Menu Pattern) populated with appropriate set of choices for this option |
| 4 | Towing | Tapping this button will open a menu (see Design Patterns - Menu Pattern) populated with appropriate set of choices for this option |
| 5 | Rental | Tapping this button will open a menu (see Design Patterns - Menu Pattern) populated with appropriate set of choices for this option |
| 6 | Medical Payments | Tapping this button will open a menu (see Design Patterns - Menu Pattern) populated with appropriate set of choices for this option |

Update Policy - Replace Vehicle - Filled - Step 3

| Footnote | Description | Functionality |
|----------|--------------------|--|
| 1 | Filled Out Sate | Form as presented to user after he or she fills out the form |

| Footnote | Description | Functionality |
|----------|----------------|--|
| 2 | Percentace Use | The set of drivers will add up to 100%. The stepper controls will have automatically adjust other driver's percentage when possible so that the total percentage will be equal to a 100. For example if we add a driver to an empty list, the percentage for that driver will be automatically set to 100 and will not be allowed to decrement or increment until other driver is added. When other driver will be added, the percentage will split to 50% each and increase of percentage for one driver, will decrease percentage to the second driver by the same amount. |

Update Policy - Help Info

The screenshot shows a mobile application interface titled "Info". At the top, there is a navigation bar with a back arrow and the word "Info". Below this, there are three distinct sections of text, each starting with "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean euismod bibendum laoreet. Proin gravida dolor sit amet lacus accumsan et viverra justo commodo. Proin sodales pulvinar tempor. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Nam fermentum, nulla luctus pharetra vulputate, felis tellus mollis orci, sed rhoncus sapien nunc eget odio." A small blue box with the number "1" is positioned in the top right corner of the first section.

| Footnote | Description | Functionality |
|----------|-------------|---------------------------------|
| 1 | Help Info | Vertically scrollable help info |

Manage Policies - Update Policy - Helpers - Cancelation Confirmation

| Footnote | Widget Type | Description | Functionality |
|----------|-------------|---------------|---|
| 1 | Button | Discard Forms | When user taps this button, the screen will dismiss, the form entry process will stop, the modal window will dismiss and user will return to "Manage Policies - Update Policy" screen |
| 2 | Button | Resume | Dismissed the confirmation dialog and returns back to editing of the form. |

Manage Policies - Update Policy - Helpers - Review Prior to Submission

The screenshot shows a mobile application interface for managing policies. At the top, there is a navigation bar with a back arrow and the text "Submit Change". Below this is a section titled "Auto" with a car icon. A message states: "Your <Endorsement Type> requested updates will be submitted". Below the message is a placeholder text "Message to review the change". The next section contains policy details: "Policy #: 000000000" and "Effective Date: 11/19/2014". At the bottom are two buttons: a grey "Edit" button and a blue "Submit" button.

| Footnote | CMID | Widget Type | Description | Functionality |
|----------|----------|--------------|-----------------|--|
| 1 | | Button | Cancel Button | Will show a confirmation screen "Manage Policies - Update Policy - Helpers - Cancelation Confirmation" in order to prevent accidental dismissal of the process |
| 2 | 29.12.01 | Header | | |
| 3 | 29.12.02 | | Policy Type | Image and name describing the policy type |
| 4 | 29.12.03 | Dynamic Text | Endorement Type | This text will be replaced with actual endorsement type used for this change request |
| 5 | 29.12.04 | Dynamic Text | Policy Number | Displays policy number |
| 6 | 29.12.05 | Dynamic Text | Effective Date | Effective Date as specified by the user during filling out of the form |
| 7 | 29.12.07 | Button | Edit Button | Cancels out the submission step and returns user to the first step in the form with all the data still available for editing |
| 8 | 29.12.06 | Button | Submit Button | Will submit the request and if successful move to the "Manage Policies - Update Policy - Helpers - Submit Notification" screen |

Manage Policies - Update Policy - Helpers - Submit Notification

1 Sumbition Confirmation

2 Auto

3 Your <Endorsement Type> requested updates have been submitted

Message that someone from the CCC will be reaching out to them

4 Policy #: 0000000000

5 Date of Request: 11/19/2014

6 Name: John F. Smith

7 Email: john.smith@gmail.com

8 Effective Date: 11/19/2014

9

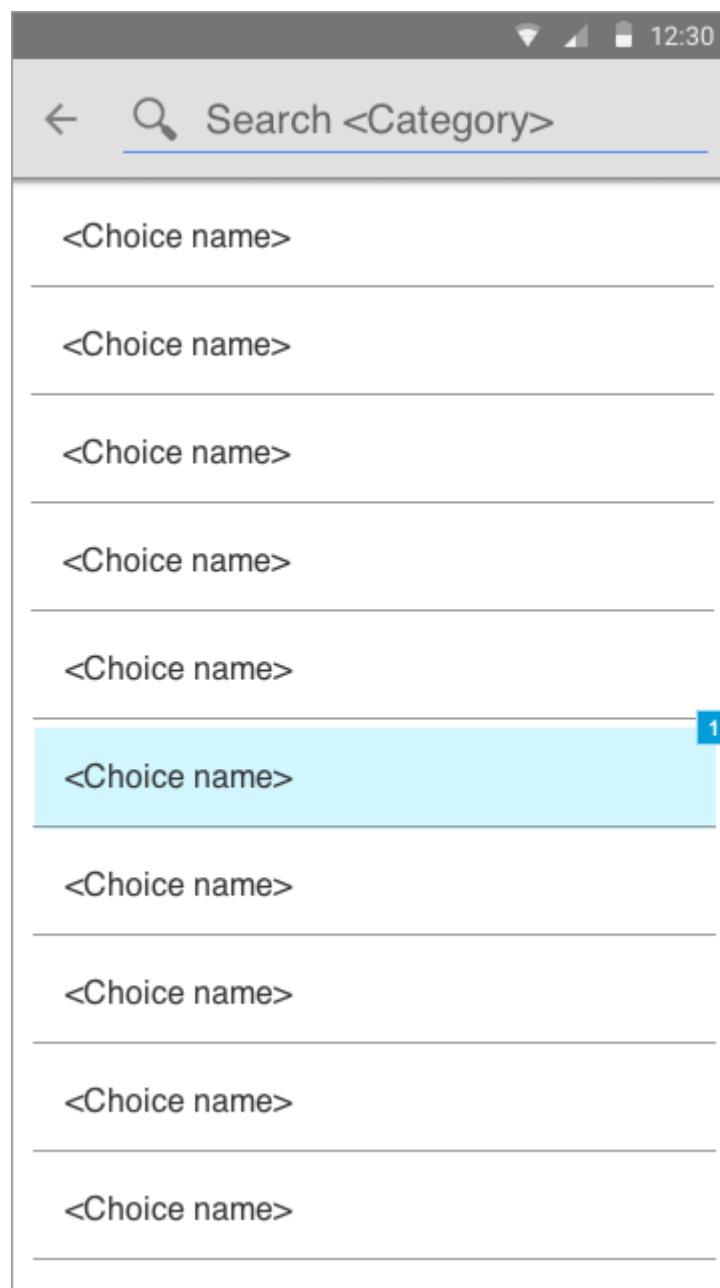

10 View Disclosure

11 Save to Gallery

| Footnote | CMID | Widget Type | Description | Functionality |
|----------|----------|--------------|------------------------|---|
| 1 | | | Done Button | Closes the modal window and returns the user to the "Manage Policies - Update Policy" screen |
| 2 | | | Policy Type | Image and name describing the policy type |
| 3 | 29.13.01 | Dynamic Text | Endorement Type | This text will be replaced with actual endorsement type used for this change request |
| 4 | 29.13.02 | Dynamic Text | Policy Number | Displays policy number |
| 5 | 29.13.03 | Dynamic Text | | |
| 6 | 29.13.04 | Dynamic Text | | |
| 7 | 29.13.05 | Dynamic Text | | |
| 8 | | | Effective Date Section | Will appear for remove, replace and change address |
| 9 | 29.13.06 | Dynamic Text | Effective Date | Effective Date as specified by the user during filling out of the form |
| 10 | 29.13.07 | Link | View disclosure | Allows user to view disclosure statement on "Update Policy - Terms and Conditions" screen |
| 11 | 29.13.08 | Button | Save to Photos Button | When tapped, the app will take a screenshot of the current screen and save it to the photo gallery on the device for user records (assuming that the user agrees to the disclaimer shown - see CM for details). On successful save, a Snackbar message will appear as specified in Design Patterns to inform the user about successful save |

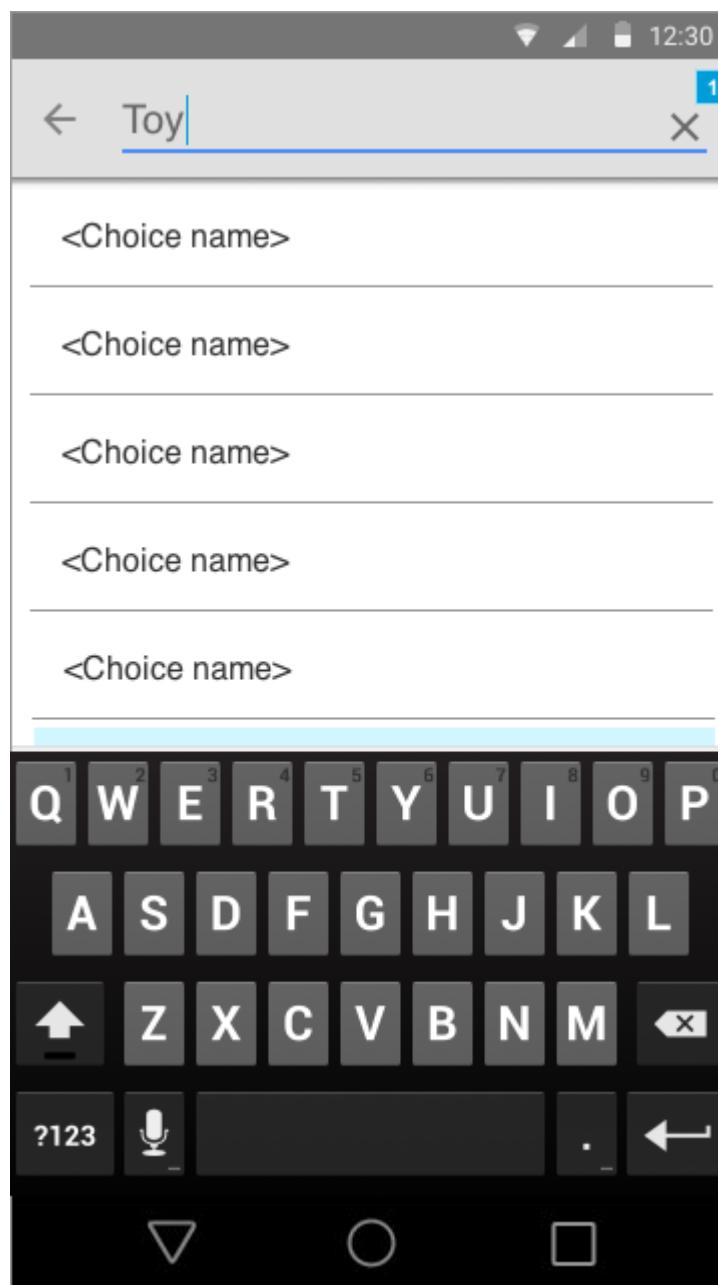

Item Selection - Single Selection with Search

| Footnote | Description | Functionality |
|----------|-------------------|---|
| 1 | Current Selection | Shows currently selected item. User will be allowed to tap on any item in the link to make the selection. Once selection is made, the user will return back to "Make or Model Selection" screen |

Item Selection - Single Selection with Search - Filtered

| Footnote | Description | Functionality |
|----------|-------------|---|
| 1 | Cancel | Cancels the search and returns the list to the browsing mode. Will appear only when user enters at least one character into the search field (standard Android functionality) |

Item Selection - Multiselect

1 <Screen Name> 2

<Choice name>

<Choice name>

<Choice name> 3

<Choice name>

<Choice name>

<Choice name>

<Choice name>

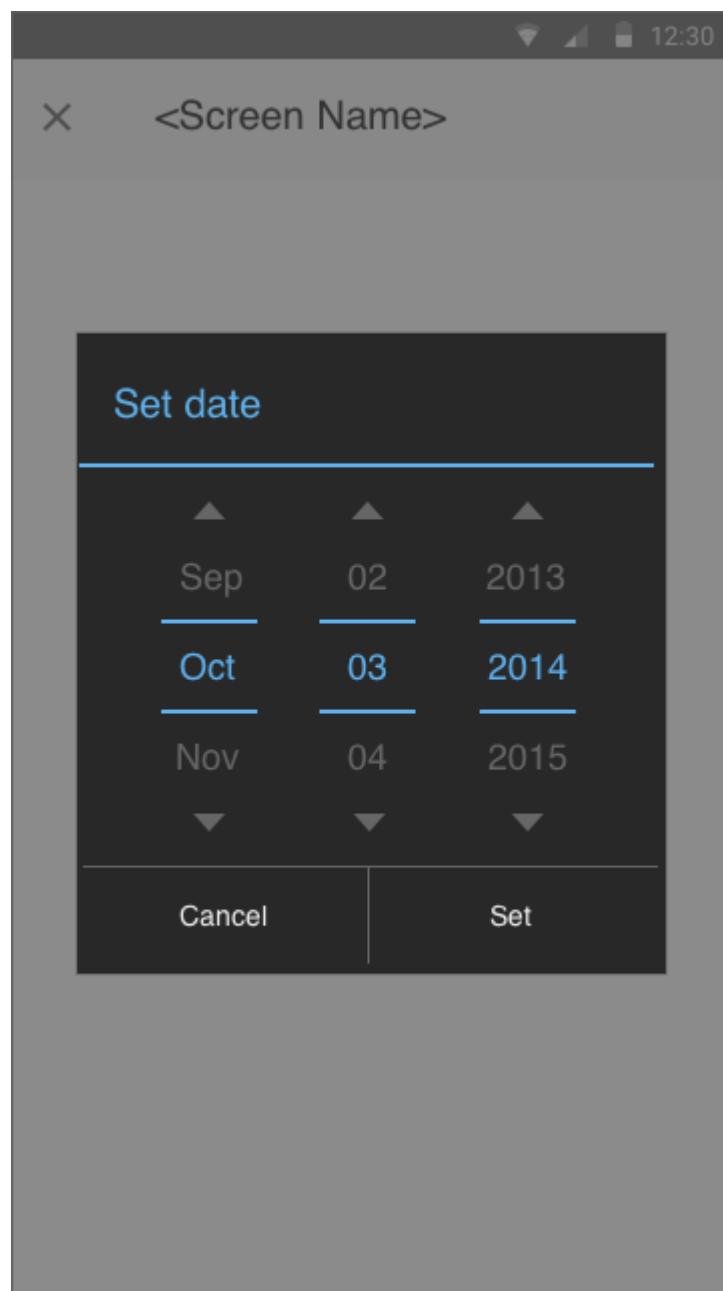

<Choice name>

<Choice name>

| Footnote | Widget Type | Description | Functionality |
|----------|--------------|------------------|---|
| 1 | Button | Back Button | When tapped on, will return the user to previous screen without changing the selection |
| 2 | Button | Done Button | When tapped on, the selected options will be set and the user will be returned to the previous screen where the selection will be reflected on corresponding UI |
| 3 | Radio Toggle | Option Selection | User will be able to toggle any option (selected or not selected) in the list. All options (cells) with the selected (on) state will signify the chosen option. User will be able to select none, one, or as many as all options in the list. |

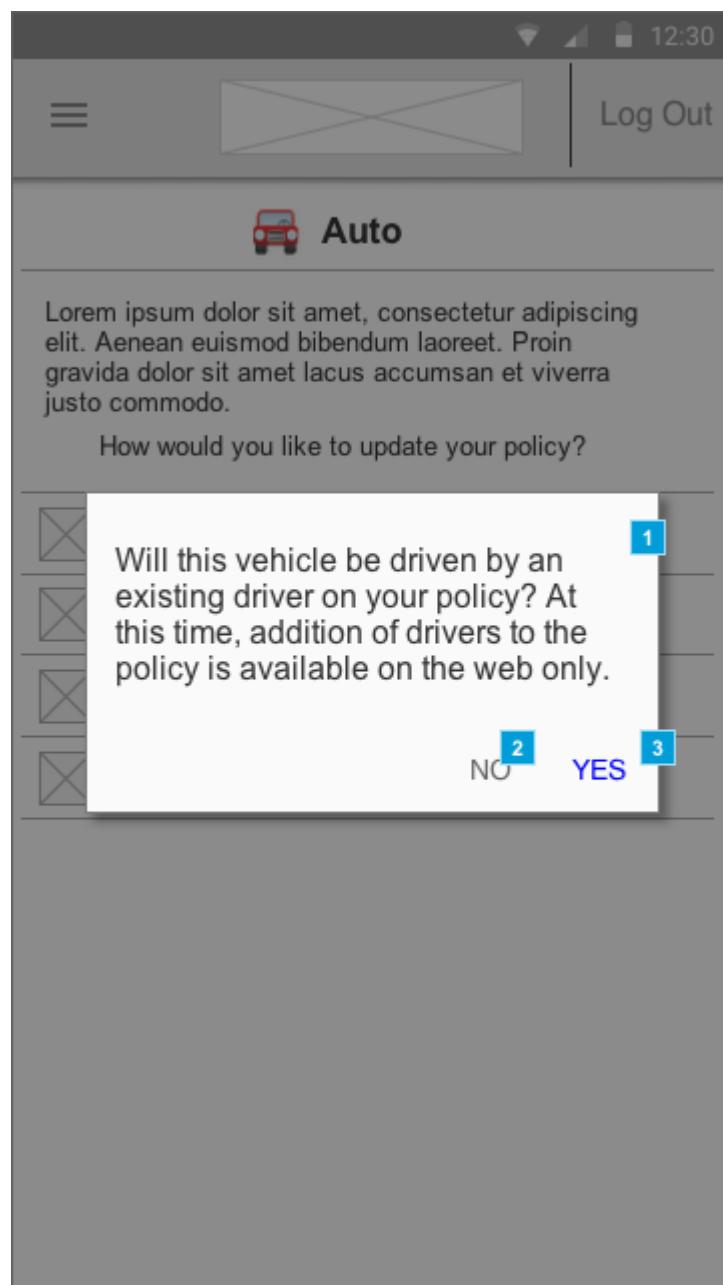

Date Picker

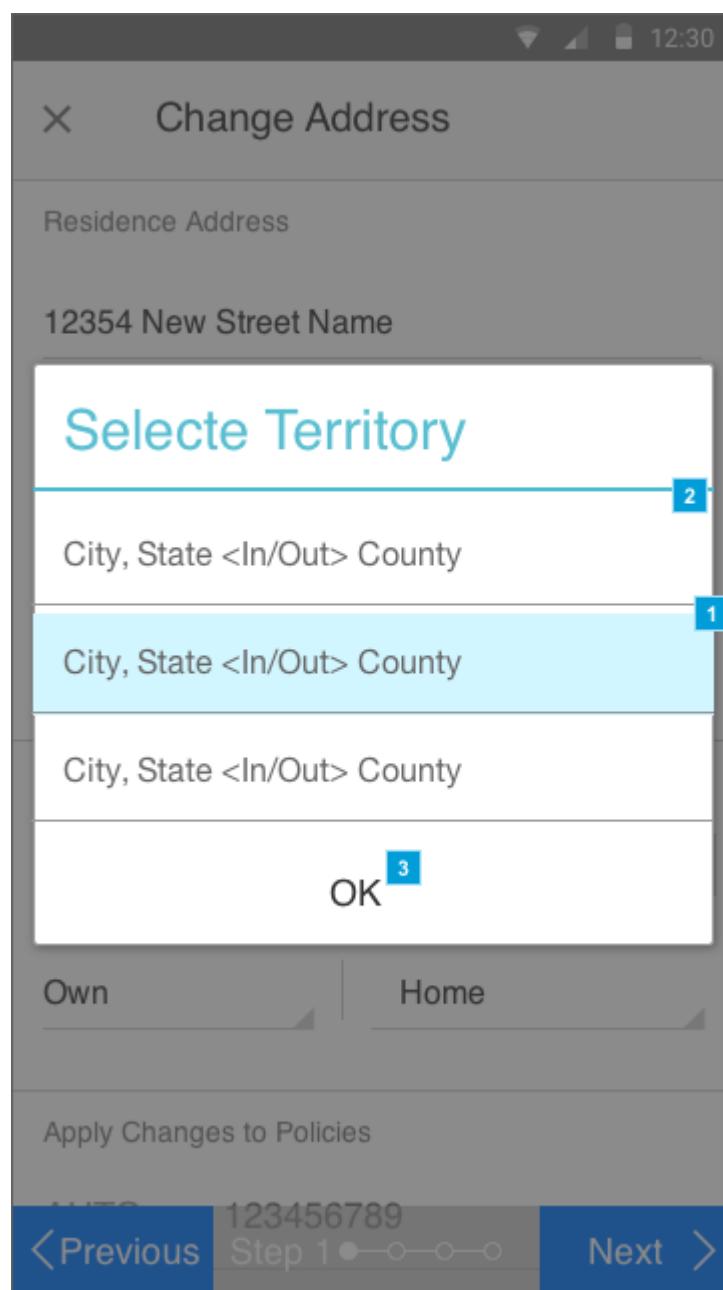

Manage Policies - Update Policy - New Driver

| Footnote | CMID | Widget Type | Description | Functionality |
|----------|----------|--------------------|-------------|--|
| 1 | 29.14.01 | Confirmation Modal | Message Box | Will inform that user that current app only supports handling the drivers that are already in the system and requires the user to acknowledge that fact before proceeding. Will only appear for Add or Replace Vehicle flows |
| 2 | | Button | No Button | Will dismiss the dialog without proceeding to the next step |
| 3 | | Button | Yes Button | When pressed, user is taken to the first step in the corresponding (Add or Replace Vehicle) process. |

Update Policy - Change Address - Select Territory

| Footnote | CMID | Widget Type | Description | Functionality |
|----------|---------|-------------|-------------------|--|
| 1 | | | Current Selection | Shows currently selected item. User will be allowed to tap on any item in the link to make the selection. |
| 2 | 29.5.08 | Modal | Territory | Scrollable list of matching territories with best match pre-selected |
| 3 | | Button | OK Button | Tapping on the OK button will dismiss the dialog and populate the territory field with the selected value. The button will be disabled until user makes a selection in the list of matching territories. |
